MUSIC & SKY | OUR JOURNEY

Music & Sky was created & activated in the fall of 2020 during the height of our collective separation, taking place on private land in the heart of Joshua Tree, California.

This was the beginning of the Reunion of People aligned in the values of Truth, Love & Freedom. Those who knew when to say No.

We continue to carry the Spirit of Freedom forward into 2023 with our ever evolving Sovereign Family for our 5th consecutive gathering this Summer. As always, grounded in the beauty of Nature...

MUSIC & SKY | OUR STORY

Music & Sky is a sovereign community building event centered in Truth, Love, and Freedom. Our events serve as a space to focus on health, wellness and knowledge sharing as we continue developing strategies towards our collective co-creation goals.

Our gatherings feature Music, Art, and Education, creating a unique immersive experience where our community can play, reimagine and connect, building long lasting relationships in beautiful natural environments.

As we deepen our family bonds, we continue to support community leadership and growth that can expand beyond our live events. As always, our work is to nurture and support practical solutions to the problems we face by creating sovereign parallel structures.

MUSIC & SKY | COMMUNITY

We are building global, decentralized, and economically viable solutions for sovereign communities.

Music & Sky is supported and connected to a wide variety of thriving online communities that are effecting positive change in the world. We are globally recognized through the media we produce at our events. This content is streamed on our platform, social channels, and through our partnerships with online summits.

In addition to our social media channels, and regular newsletter - we offer our own decentralized private online community platform where our growing community gathers between our events to maintain their relationships through group forums and meetups.

We welcome new partnerships that bring value to our healthy and well informed sovereign communities.
